Feature Explanations

COMBAT · PASSIVE

Rogue Sneak Attack

At the table: You use openings, distractions, and good positioning. When the moment is right, your attack hits especially hard.

Mechanically: Once per turn, you deal extra damage when you hit with a suitable weapon and have Advantage, or when an ally is right next to the target.

ROLEPLAY · PASSIVE

Expertise

At the table: You're so good at two skills that you leave others in the dust. Choose where you want to shine.

Mechanically: Choose 2 skills you're proficient in. Your Proficiency Bonus doubles for those skills. At level 1 that means: instead of +2, you add +4 to those rolls.

Rogue Thieves Cant

At the table: You know secret signs, hints, and codes from the underworld.

Mechanically: You can understand simple hidden messages with others who know Thieves' Cant. This matters mostly for contacts, clues, and secret communication.

Background: Shelter of the Faithful

At the table: You grew up in a temple and devoted your life to serving a deity. Religions, rituals, and sacred texts are your home ground.

Mechanically: temples of your faith offer you free lodging, food, and sometimes aid from the faithful.

Human Versatility

At the table: Humans are flexible. This character is not locked into one specific origin idea and fits into almost any group.

Mechanically: This bonus already helped during character creation. The extra scores or choices are already included on page 1.

Sleight of Hand

At the table: **Sleight of Hand** is a special ability of your character.

Mechanically: Note this feature on your sheet and use it when the situation at the table fits.

Deception

At the table: **Deception** is a special ability of your character.

Mechanically: Note this feature on your sheet and use it when the situation at the table fits.

TOBI'S TALES PRESENTS
